

## Chat View

By Grant Foudree

The chat view page is for the group chat with everyone in the lobby for a game. It allows multiple people to talk to each other while waiting for the game to start. (1) The navigation menu slides out showing different pages of the app to navigate to. (2) Drops down showing menu items such as settings. (3) Sends the current text in the message text field. (4) The message text field containing the message to be sent. (5) An example message from another person in the group chat. People are also allowed to push and hold to open a menu to report a player for spam or offensive language. (6) The ability to add additional people to the chat. (7) A list of the current people in the chat.

## Game View

By Grant Foudree

This page allows people to view details about the game, current players and their rating, the ability to join and to message people currently in the game lobby. 1) The navigation menu slides out showing different pages of the app to navigate to. (2) Drops down showing menu items such as settings. (3) The title of the current game. (4) The button to join the game. Once a player joins the game this button turns into the leave game button. (5) This button takes you to the chat view page so you can talk to other people in the group. (6) Current game information such as the location, time, number of players, description, and the captain of the game. (7) The current rating of the player in terms of up and down votes. (8) A list of all the players in the game with their profile picture and name.
